

Q-Flex™

RISER

Kink-free. Preassembled. Versatile.

NETAFIM™

Q-FLEX™ RISER CONNECTS DRIP LINES TO THE SUBMAIN SAVES TIME FOR DRIP INSTALLERS AND MAKES FARMERS HAPPY

Avoids irrigation problems

Prevents pressure losses or flow restriction with kink-resistant design.

Ready to install

Comes preassembled, prepackaged, and ready to use right out the box.

Reduces labor costs

Simplifies and shortens the installation process, saving time and manpower.

Tailored to your needs

Configurable for diverse connectors, customizable for connecting Thin, Medium and Heavy walled drip lines to PVC, FlexNet™ and PE submains.

Built for toughness

High-quality polypropylene material provides UV resistance with minimal elongation.
