

NETAFIM USA PRODUCT UPDATE

AUGUST 2010

1" COMBINATION AIR VENT NOW AVAILABLE WITH A POLYPROPYLENE BODY

Netafim is now offering the 1" Combination Air/Vacuum and Continuous Acting Air Vent with a Polypropylene Body. This new body material is corrosion-resistant and UV protected with no metal parts to rust or corrode. Other features include:

- Maximum Operating Pressure - 150 psi
- The Air Vent Nose - Orange
- The Air Vent Body - Grey

The new Polypropylene 1" Combination Air Vent has the same proven design which provides more air capacity and a more competitive lower price. With proper sizing and placement, Air Vents ensure maximum protection of your irrigation system.

APPLICATIONS

- For discharge and intake of large volumes of air at pump and filter stations, along mains and at the end of mainlines
- For continuous air release at high points in pipe network or upstream of manifolds
- Every 1,500' along mainlines
