NETAFIM USA INTRODUCES NMC PRO SYSTEM MANAGER

Maximize the Performance of Your Irrigation
System from One Central Location

Fresno, CA – Netafim USA, the industry leading manufacturer of drip/micro irrigation systems, has introduced a new addition to our Crop Management Technologies line – the NMC Pro System Manager. It does more than just open and close irrigation valves – it integrates all your control features in one easy-to-use unit. From one central location, you can operate, monitor and maximize the performance of your irrigation system. Advanced features like fertilizer and EC/pH control can be accessed if and when needed. The NMC Pro System manager provides the control necessary to optimize irrigation efficiencies and fertilizer injection functions.

Additional features:

- Program Memory Back-up Key
Programs are backed up to a memory key which is removable for safe storage
- Large Graphic LCD Display
Easy to read with simple programming and readable in direct sunlight
- Real-Time and Historical Records
Graphic data and event logging appears on the LCD screen in graph or text formats
- Choice of Power Sources
Adaptable to your environment with AC or DC power supplies

The NMC Pro System Manager is affordable for growers with small or large operations. Flexible and expandable control outputs and inputs allow modification of the system to accommodate growth.

Awarded **ISO 9001:2000 Certification** by the International Organization for Standardization – Netafim USA is the largest growing division of the Netafim International Group, the pioneer of micro-irrigation technology. With over 44 years in the irrigation industry and global expertise in more than 120 countries, Netafim offers a full-line of products for a variety of markets including agriculture, landscape, greenhouse, nursery, mining and wastewater. Netafim USA is headquartered in Fresno, California.
