NETAFIM EXPANDS FITTING PRODUCT LINE WITH INTRODUCTION OF TWIST-LOCK FITTINGS

Fresno, CA – Netafim USA, the industry-leading manufacturer of micro-irrigation systems continues to expand its family of fitting products with the introduction of Twist-Lock™ Fittings. Added to their Agriculture Division, the Twist-Lock fitting product line provides the most complete selection of fittings Netafim has ever offered for their thinwall dripperlines, with a further expansion planned in the coming months.

Netafim Twist-Lock fitting's unique design provides a secure, leak-proof connection for buried installations in soils that expand and contract with wet and dry cycles. Large reverse threads make installations in all conditions easy. Reusable year after year, Twist-Lock fittings are resistant to agricultural chemicals, the sun's ultra violet rays as well as heat degradation. Available with Streamline and Typhoon 630 and 875 Series Thinwall Dripperline and fits most 4 mil to 25 mil dripperlines.

Additional benefits include:

- Ideal for connecting PVC, Layflat and PE submains in expansive soils
- Optional pressure ratings available on several sizes to fit virtually any application
- Chemical, UV and heat resistant
- 5-year warranty

Netafim Twist-Lock product line includes PE Tubing Adapters, Start Connectors, Male Adapters, Couplers, Line Ends, Layflat Adapters, 0.400" Barb with valve adapters, Barb Elbows, Tees and Tee Adapters.

Awarded **ISO 9001:2000 Certification** by the International Organization for Standardization - Netafim USA is the largest growing division of the Netafim International Group, the pioneer of micro-irrigation technology. With over 39 years in the irrigation industry and global expertise in more than 80 countries, Netafim offers a full-line of products for a variety of markets including agriculture, landscape, greenhouse, nursery, mining and wastewater. Netafim USA is headquartered in Fresno, California. For more information about Netafim USA, visit us at www.netafimusa.com
