

Flow Regulated "Bug-Proof" Spray Jet

Product Advantages

- Widest regulating range:
 - Maintains uniform flow across broad pressure range.
 - Patented pressure differential technology with floating, self-flushing diaphragm.
- Highest distribution uniformity - unique nozzle tube prevents negative effects of varying inlet pressure on the wetted diameter.
- Long-term reliable uniformity:
 - The largest water passages on the market — resists clogging.
 - Drop-down "Bug-Proof" jet plate prevents entry of insects.
 - Engineering-grade materials and heavy-duty bearing results in superior endurance.
 - Easy disassembly.
- Sprinkler mounting options:
 - Suspended from trellis wire by integral hook.
 - Placed in the ground with one of two SuperNet stake options.
 - Threaded into a 3/8" riser.

Applications

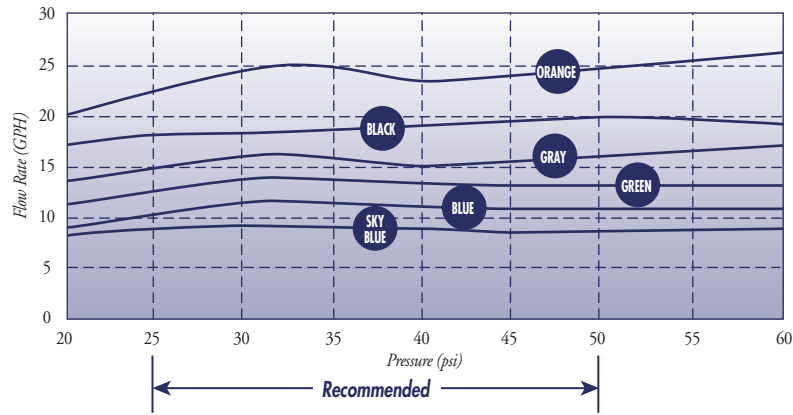

- For orchard and vineyard jet installations where flow regulation and insect resistance is desired.

Specifications

- Base connection options:
 - Quick-Connect thread (standard)
 - Barb
 - 3/8" male thread
- Flow range: 8.2 - 23.8 GPH
- Pressure range: 25 - 50 psi (recommended)
- Wetted diameter: 16 - 18 feet
- Pattern: 12 Jets, 360°
10 Jets, 300°
8 Stream, Butterfly

Supernet Jet Technical Performance

SUPERNET JET Flow vs. Pressure

SUPERNET JET PERFORMANCE

Nozzle Size	Model # (Nozzle Color)	Nominal Flow Rate	Jet Swivel Color	Wetted Diameter (feet)	Item Number	Model Number
.045"	#30 (Brown)	8.2 GPH	Orange	16	N/A	034290300000
.047"	#35 (Sky Blue)	9.2 GPH	Orange	16	N/A	034290350000
.050"	#40 (Blue)	10.6 GPH	Orange	16	63500-097550	034290400000
.056"	#50 (Green)	13.2 GPH	Orange	16	63500-098850	034290500000
.061"	#58 (Gray)	15.3 GPH	Orange	16	63500-100150	034290580000
.068"	#70 (Black)	18.5 GPH	Orange	18	63500-101450	034290700000
.069"	#90 (Orange)	23.8 GPH	Orange	18	63500-102750	034290900000

Supernet Jet Options and Accessories

SuperNet Jet Steel Stake (Optional)

- Ideal for applications where high riser heights are required
- Installs in dry, hard soils – no need to pre-wet

SuperNet Steel Stake option consists of:

1. Poly adapter
2. Optional 1/4" steel stake - available in 24", 48" or custom lengths. Call Customer Service for price and availability.

Stream Splitter

- Divides the stream to eliminate water on trunk.

ACCESSORIES PART NUMBERS

Item Number	Model Number	Description
63520-005800	031735	Stream Splitter
65080-001000	03175624	24" Steel Stake
65080-001220	03175648	48" Steel Stake
63520-005950	03173600	Poly Adapter
