

High Performance Spray Jet

Product Advantages:

- Open frame and spray plate.
- No moving parts.
- Wide range of spray patterns and trajectories.
- Color coded nozzles for flow rate identification.
- "Quick" thread for easy insertion into tubing.

Netafim USA - Delivering Total System Solutions for Agriculture

- Dripplines • Sprinklers • Filters • Valves • Air Vents • Flow Meters • Crop Management Technologies

NetJet

Optional Stream Deflector

NetJet with optional Stream Deflector

Optional Stream Deflector

The stream deflector concentrates all the water on the area surrounding the young tree during the early stage of growth. As the tree matures, the stream deflector can be snapped off allowing expanded irrigation coverage.

PART NUMBER

Item Number	Model Number	Description
00015-011250	03712998	Stream Deflector

Applications:

- Specifically designed for orchards, vineyards and nurseries.

Specifications:

- Materials: UV Stabilized Acetal®
- Base connection: Quick-thread (0.16")
- Flow ranges: 6 to 30 GPH
- Spray patterns/streams: See reverse
