

# NETAFIM USA PRODUCT UPDATE

MAY 2009

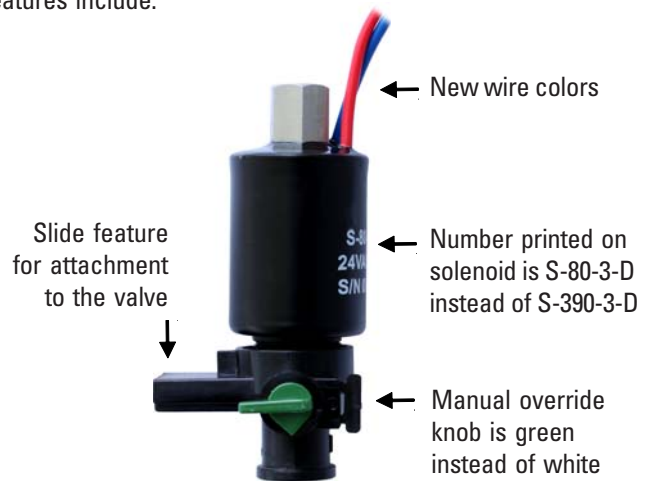

## UPGRADED SOLENOID FOR 3-WAY ELECTRIC VALVES STANDARD COMPONENT ON ALL NYLON & PVC VALVES AND 4" & SMALLER IRON AND BRONZE VALVES

Netafim's solenoid allows electric control of On/Off, Pressure and Flow Regulating Valves while assuring the highest hydraulic performance, low power consumption and long service life. Upgraded features include:

- Low sensitivity to dirty water and voltage fluctuations
- High quality materials for maximum durability
- Compatible with most controllers
- High flow rate resulting in faster valve reaction
- Optional metal bracket with mounting hole for attachment to the valve

Refer to the chart below for the 3-Way Solenoids included in this update. Item and Model Numbers and List Prices remain the same.

Replacement coils and bases are interchangeable between the old style (labeled S-390-3-D) and the upgraded solenoid (labeled S-80-3-D). For additional questions, contact your Netafim District Sales Manager or Customer Service at 888-638-2346.
