

Pressure Regulator

Delivers Uniform Flow of Solution from the Top to the Bottom of the Slope

Product Advantages

- Delivers instant response to changes in pressure, assures that outlet pressure will remain constant regardless of inlet pressure.
- Uniform pressure provides efficient leaching.
- Made of acid resistant materials.
- Netafim USA Inline Pressure Regulators are preset at 15 psi.
- Made of high quality plastics to provide corrosive-resistant performance for the Mining Industry.

Netafim USA – Delivering Total System Solutions for Mining

- Dripperlines • Filters • Valves • Air Vents • Sprinklers • Flow Meters

Pressure Regulator
(15 psi)
In-Line, Low Flow

Applications

- For uniform leaching on sloping terrain to control pressure in each leach line.

Specifications

Maximum inlet pressure: 140 psi

Flow range: 0.25 to 4.4 GPM

Inlet/Outlet connections: FIPT

Length: 3"

Materials: PBT Plastic (acid resistant)

ORDERING INFORMATION

Size	Part Number	Description
3/4"	PRVIL075PURI5	Pressure Regulator
3/4"	PRVIL075PRI5NC	with 18mm Adapter
