TERMS AND CONDITIONS

ORDER CANCELLATIONS

Buyer may not cancel an order unless such cancellation is expressly agreed to in writing by Netafim USA. Netafim USA has no obligation to cancel an order for Non-Standard, Make-to-Order, Custom or Special-Order Products after the Products have been manufactured, or received from a vendor, or a non-cancellable purchase commitment has been entered into with a vendor. If Netafim USA, at its sole discretion, agrees to cancel such an order, upon cancellation the Buyer may be charged 50% or more of the order value based on how saleable the Products are.

PRODUCT CHANGES

Netafim USA reserves the right to redesign, alter, or modify its Products at any time, without notice. Any catalog, design manual, price sheets, and/or other written material are subject to withdrawal or change at any time without prior notice. Possession of the current catalog or price sheets does not constitute an offer to sell.

PRODUCT INSTALLATION

Unless otherwise agreed by Netafim USA, Netafim USA does not provide advice or assistance in the installation of the Products by the Buyer or any third party.

BAGGED PRODUCTS

Netafim USA has a number of Products that are packaged and sold in bagged or case quantities. Bagged parts are designated by placing a "-B" at the end of the product number. The quantities have been developed to provide the best value for the most standard quantities ordered and are intended for sale in the quantities listed. Order quantities will be rounded up to the nearest bag or case quantity at Netafim USA's discretion. Buyer can verify part numbers and quantities being ordered by using the Netafim USA Dealer Portal or the Netafim USA price list. Netafim USA shall not be held liable for the impact of Buyer mistakes in order quantities due to incorrect part numbers or quantities not matching bagged or case quantities.

REEL DEPOSITS

When requested by the Buyer, heavy wall irrigation tubing may be provided to the Buyer on Metal Reels. The Metal Reels are approximately 8 feet in diameter and of hub and spoke construction. The reels will be loaned to the Buyer to facilitate the bulk transportation and installation of the irrigation tubing. A seven hundred dollar ($700) deposit per reel will be applied to cover the cost of each reel. The reel must be returned in good condition for the deposit to be credited back to the Buyer. Damaged reels will not be accepted for credit. Buyer will be responsible for return freight. Reels must be returned within 120 days to receive credit.

ACCEPTANCE

The Buyer acknowledges its responsibility for inspecting all Products shipped by Netafim USA to determine whether said Products are in conformity with Buyer's order, including whether all Products listed on the packing list have been shipped and whether the shipment contains any damaged Products. The Buyer agrees that fourteen (14) days from receipt of each shipment is a reasonable time in which to perform the inspection and notify Netafim USA of any nonconformity. If Netafim USA has not received a written notice of nonconformity within fourteen (14) days of the Buyer's receipt of the shipment, the Buyer hereby agrees that the Products shall be deemed to be accepted by the Buyer, as that term is defined by the California Commercial Code. To avoid any doubt, the Buyer's right to reject the shipment will be terminated. Also, if a written notice of nonconformity is not received within fourteen (14) days of the Buyer's receipt of the shipment, Netafim USA will be relieved of any obligation concerning the shipment, other than warranty obligations, and the Buyer will pay for the shipment in full. The Buyer shall bear the complete cost of the inspection in all circumstances. The Buyer agrees that Netafim USA will have an opportunity to cure any nonconforming shipment. The Buyer further agrees that, in the event that a notice of nonconformity is received by Netafim USA, the time for Netafim USA's performance under the Agreement will be extended for a reasonable time to allow Netafim USA to tender conforming Products or make reasonable repairs.

RETURNS – STANDARD PRODUCTS

No Products may be returned without Netafim USA's written consent and authorization. Requests to return Products must be made within 120 days of receipt of shipment from Netafim USA and reference the Netafim USA invoice number. Any approved return must be accompanied by a return goods authorization (RGA) issued by Netafim USA,

clearly marked on the exterior of the parcel, and shipped freight prepaid within 30 days of the RGA issue date. All Products must be new, in original packaging, and in salable condition. All approved returns may be subject to a restocking fee. Buyer will bear the costs of return freight. Any shipment not meeting these criteria will not be accepted. The intent to return Products does not relieve the Buyer of the obligation to pay for the Products per the terms of the original invoice. Credit will be given only after the authorized return is received and accepted at Netafim USA.

RETURNS – NON-STANDARD PRODUCTS

Non-Standard, Make-to-Order, Custom or Special-Order Products may not be eligible for return. Netafim USA may, at its sole discretion, deny the return of such non-standard products. If Netafim USA agrees to the return of such Products, the Products must be new, in original packaging, and in a saleable condition. The repurchase price offered for the return may be discounted 50% or more, based on how saleable the Products are. The intent to return Products does not relieve the Buyer of the obligation to pay for the Products per the terms of the original invoice. Credit will be given after the authorized return is received and accepted by Netafim USA.

RETURN OF DEFECTIVE PRODUCTS

Netafim USA will be responsible for the return shipping of Products that are defective upon arrival, other than Products damaged in transport by the carrier. A Notice of Defect must be received by Netafim USA within fourteen (14) days of Buyer's receipt of said Products. The Buyer agrees that failure to give a Notice of Defect within such time is a waiver of any defect. Prior approval from the Buyer's District Sales Manager and an RGA must accompany all returns. Credit will not be given until the Product has been received by Netafim USA and approved for warranty.

PARTIAL SHIPMENTS/COMPLETE SHIPMENTS

Netafim USA's goal is to ship Buyer orders complete and within the requested delivery time. Netafim USA may ship orders from any available warehouse, to meet requested delivery dates, unless otherwise specified by the Buyer. Netafim may charge additional shipping and handling costs to Buyer incurred by partial shipments of an order.

DELIVERY PERFORMANCE

Netafim USA will use commercially reasonable efforts to meet the delivery dates, specifications, and quantities set forth in an order acknowledgement. Netafim USA will not be liable for nonconformity, losses, damages, or delays suffered by the Buyer or any third party for any failure to meet the delivery dates, specifications, and quantities. If Netafim USA cannot meet the delivery date, it will notify the Buyer and use reasonable endeavors to make delivery within a reasonable time. Buyer must accept delivery and pay the Price thereof irrespective of such delay. In the absence of a delivery time set forth in the order acknowledgement, or subsequently provided by Netafim USA, the delivery date will be within ninety (90) days of the order acknowledgement.

FREIGHT POLICY

In consideration for the Buyer placing orders that meet minimum thresholds, as defined in the Freight Policy Statements (see FREIGHT CHARGES below), Netafim USA will provide freight allowances that may completely or partially reimburse the cost of freight. Unless otherwise agreed, the allowances will be applied against the cost of Transportation. For the purposes of this policy, "Transportation" is defined as the cost of basic freight plus fuel surcharges, using preferred carriers, with standard trucks (closed box trailer without lift gate), standard loading methods, and no accessorial charges, i.e., Best Method Transportation. Buyer requests for non-standard Transportation that results in additional costs, may be invoiced to the Buyer. Accessorial Services (non-standard services such as Lift Gates, Pallet Jacks, Driver Assist, etc.) may be charged separately on the invoice. If non-standard Transportation or Accessorial Services are billed to the Buyer, "Freight Free" shall mean that Transportation costs only will be fully reimbursed.

IRRIGATION CONSUMER BILL OF RIGHTS

AGRICULTURE

Note: This supplements various bills written for specific irrigation methods. Discuss these items with your irrigation dealer before purchasing your irrigation system. The discussion will help you to make wiser selections of design options and to appreciate the obligations of both yourself and the dealer in creating your irrigation system.

Designer Qualifications

- What are the dealer credentials (formal training, references, designer certification by the Irrigation Association, contractor's license, and/or professional agricultural engineer registration)?

Design Features

- What is the life expectancy of system components?
- What safety features have been included?
- What are the options for future upgrades?
- What is the recommended list of spare parts?

Specific Operation/Design Parameters

- What will be the distribution uniformity of the whole field when brand new?
- Does the system provide climate control?
- Water requirements?
  - What are the peak daily needs (acre-inches) for a normal year?
  - What is the system delivery capacity in 24 hours (acre-inches)?
  - What is the anticipated amount of water to be used per year (acre-feet)?
  - If the field has plants with different spacings, ages or varieties, what is the recommended procedure to provide the appropriate amount of water per acre per week to each block?
- Energy consumption
  - Is it possible to pump all water during off-peak hours?
  - What are the pump and motor/engine efficiencies?
  - Are you provided with a pump curve showing the GPM and pressure?
  - What is the sensitivity of pump flow rates to well water level changes?
  - What is the energy cost per acre-foot?

Filtration

- Is filtration necessary, and if so, what type is provided?

Chemical Injection

- Are locally required backflow prevention and safety devices provided?
- What is the capacity of the injector, in gallons per hour?
- Can the equipment inject both fertilizers and other chemicals?

Flow Meter

- Does it measure both flow rate (GPM) and/or volume (acre-feet) applied?
- Does installation follow the manufacturer's recommendations with regard to lengths of straight pipe, pipe diameter and straightening vanes?

Pressure, Air and Flushing

- Are there adequate continuous air vents, vacuum relief valves and flushout?
- What are the number, type and size of pressure relief valves?
- Is the pressure rating of all system components sufficiently high for the anticipated water temperature, surge pressure and normal pressures?

Warranties

- Who provides equipment installation, start-up and adjustments?
- What are the warranties on individual components and "system" design performance?
- Who is providing warranties and what do the warranties cover and exclude?
- Are the providers financially capable of standing behind their warranties?
- What is the availability of replacement parts?
- Is a packet provided containing manufacturer's literature, warranties and operation instructions for the system?
- Is the irrigation dealer a "full service" dealer?

HOW TO READ WATER METER MODEL NUMBERS

For Octave Ultrasonic Meters

36	MODEL	SIZE	OUTPUT MODULE	UNITS (TOTAL-FLOW)	PULSE
	OCT	2	N = None*	A = Acre Feet - GPM	.0001
	OCS	3	P = Pulse, Default, 2 Ch, Shared common	B = Barrel - BPM	.01
		4	D = Pulse, Dry Contact, 2 Ch, Isolated common	F = Ft3 - GPM	.1
		6	S = Pulse, Solid State, 2 Ch, Isolated common	G = Usg - GPM	1
		8	A = Analog, 4-20mA, 12 or 24vDC Loop powered	I = Acre Inch - GPM	10
		10	M = Modbus	L = M^3 - L/S	100
		12		M = M^3 - M^3/H	1000
					**

*If customer chooses 'NO OUTPUT', meter should still be programmed for optimal pulse in case they want to add a module later.
** See individual product pages for options.
Note: All ER's to ship with output cable

NOTE:
Model Numbers - 18 character limit
No Leading Zero's (0) - Example: 0.1 = .1, 002 =2
